X-40A fourth successful flight tests side-to-side movement

The fourth in a series of up to seven free flights of the X-40A Saturday successfully tested the vehicle's ability to perform side-to-side maneuvers and its ability to safely land when released outside the nominal release altitude of 15,000 feet. The X-40A free flights are being conducted as part of Marshall's X-37 program.

Blood pressure screenings noon-3 p.m. daily, Marshall Medical Center
